

Sponsors in BasketballZone

What is it?

One type of advertising in BasketballZone manager is becoming a sponsor. **Sponsors** are not only advertising themselves but also are an important part of the game: they fund leagues and clubs, therefore players take it not as a tiresome advertisement but as an important element of the game.

All sponsors' links in the game lead to sponsor's page, where all the **information about the particular sponsor** is given. The example of sponsor's page is given in *Fig. 1* Sponsor's page contains the following information about him: link to sponsor's webpage, specialization (type of activity), sponsor's information in the game and a short description.

Fig. 1 Information about the sponsor

League's sponsor is presented in the title page of the league (*Fig. 2*) He funds all the clubs that play in the particular league.

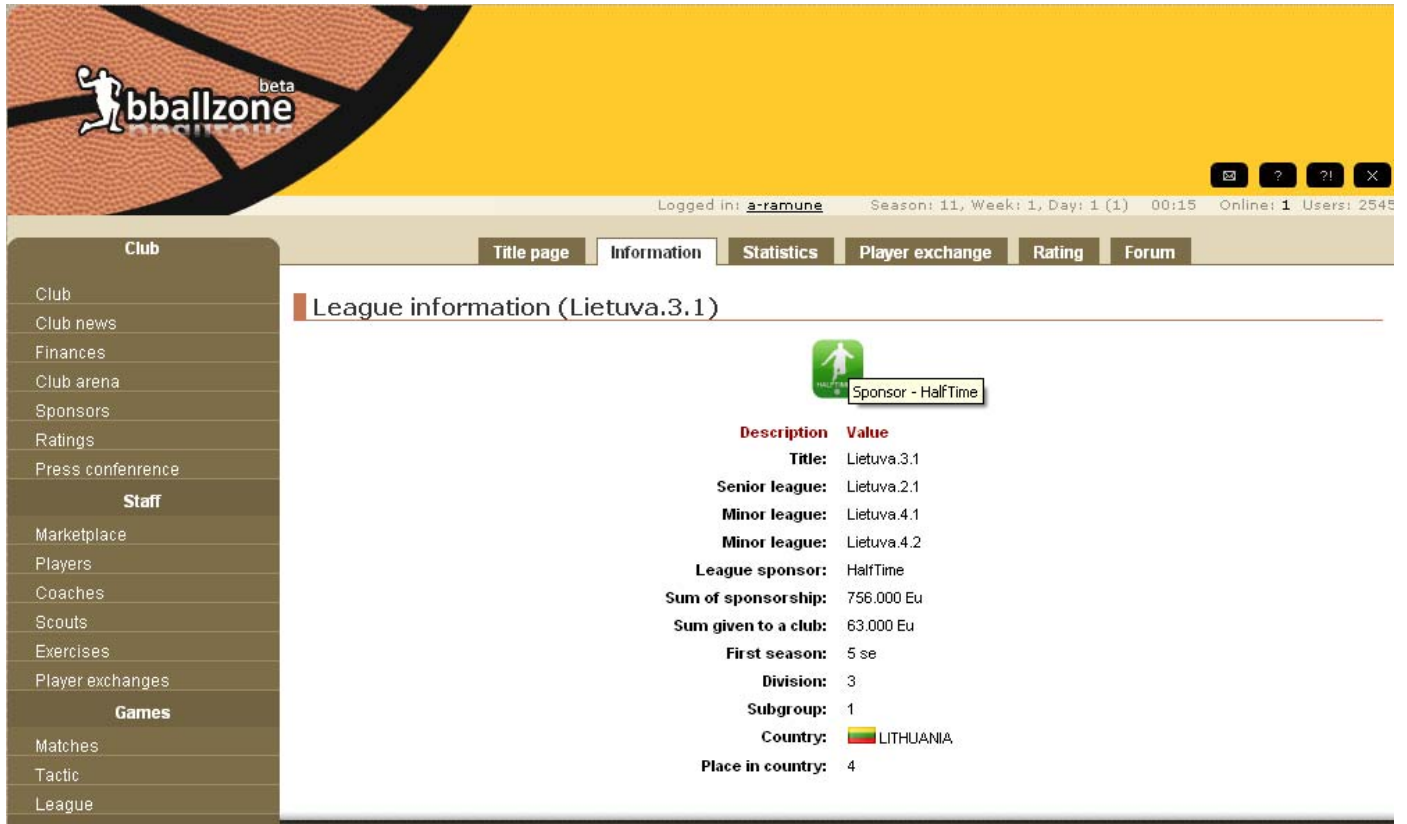

Fig. 2 League's sponsor

Each club signs contracts with **sponsors** (*Fig. 3*), who give money for buying players and other expenses. Each club has two big-share, two small-share and one league sponsor. Big-share sponsors are displayed in every page, related with the club (club's description, schedule, etc.) It is a great and modern way to advertise because users choose club's sponsors themselves, i.e. the advertisements that they want to see. In addition, every user becomes a channel for further advertising by introducing a link to sponsor's description page for other BasketballZone users.
